Lawn Mowers.

To keep the Lawn in nice condition you must have a Lawn Mower, in that line we can supply you with the best Lawn Mowers made. This Lawn Mower has wheels $8\frac{1}{2}$ inches high, this is one of the most important improvements over the old style low wheels; high wheels makes it light running and will not choke like a low wheel Mower, it will cut higher grass than most mowers. It is constructed with but very few parts therefore not parts to get out of place. This is a strictly high grade Mower; we bought a large lot before the advance in price of iron. We give our customers the benefit of the extremely low price boxed and delivered f. o. b. Mercersburg, Pa.
